Docket No. 98N-1265 11577 99 MAY 14 P3:23
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have been using compounded medication
(vitamins) for about 2 years and it helps relieve
my symptoms. I feel that pharmacies that
specialize in these medications shouldn't be
limited in who they can market their products.
Their business is to research and make the best
products available to ANYONE who chooses to
use them. Please let people's health come before business.
Thank you.
